Fairfield County House
COMPASSIONATE END OF LIFE CARE

We are a small residence where people receive hospice care from licensed providers and 24/7 nursing and personal care from the House team.

We offer a welcoming environment where residents and their loved ones spend time in meaningful ways.

Fairfield County House

Our mission is to provide a home for people at the end of life that offers the highest quality of care and life experience.

Sometimes staying at home on hospice is not possible but family and friends want to spend time with loved ones at the end of life. That's where we come in.

We are a six-bed residential home licensed by the State of Connecticut to provide assisted living services. We work with all area hospice agencies to provide home hospice services in a home away from home.

We Provide...

- 24-hour nursing, personal care, and supervision.
- Medication management.
- Private suites with exterior access to allow visitors.
- Meals and snacks at resident convenience.
- Laundry and housekeeping.
- Family support.
- Social and emotional support.
- Joyous and meditative experiences.
- Short-term (up to 5 day) respite care for families is also available.

The Cost...

As a non-profit serving the community, we are supported by resident fees, grant funding, scholarships, and donations.

Our rate including all services above is \$600.00 per day which is less expensive than most 24-hour live-in care.

Flexible payment arrangements and financial aid are available.

We accept long-term care insurance.
